

✦ SERRATING / GROOVING TOOL 'BNW' SERIES

FEATURES:

- Simple to change cutter for different groove shapes.
- Changing of pilot nose & cutter allows one tool to cover a range of hole diameters.
- Location & depth of cut easy to adjust.
- Only light pressure required to cut precision grooves.
- Ready to fit CNC drill machines, lathe and boring machines.
- The life of the cutter extendable by re-shapening.

Sizes Available : 3/8" O.D. To 2.1/2" O.D.

Bore Range		Tool	Pilot Nose	Circular Form Cutter	Tool Bit Holder	Spare Tool Bit
Inch	Mm	Model No.	Model No.	Model No.	Model No.	Model No.
3/8-1.1/4	9-32	1BNW-2 MT	1 BNW - PN	1BNW - CF	1BNW - TBH	1BNW - TB
5/8- 1.3/4	16-45	2 BNW-3 MT	2 BNW - PN	2 BNW - CF	2 BNW - TBH	2 BNW - TB
3/4-1.7/8	19-48	4 BNW-4 MT	4 BNW - PN	4 BNW - CF	4 BNW - TBH	4 BNW - TB
1.1/2-4	38-102	6 BNW-5 MT	6 BNW - PN	6 BNW - CF	6 BNW - TBH	6 BNW - TB

Note : Specify whether you need Circular Form Cutter (one piece HSS construction) or Tool Bit, when ordering.
Refer to operation manual for spare parts list.
